Medium Density Fibreboard

SIFA offers a wide range of articles dedicated to match the most demanding requirements in the indoor sector.

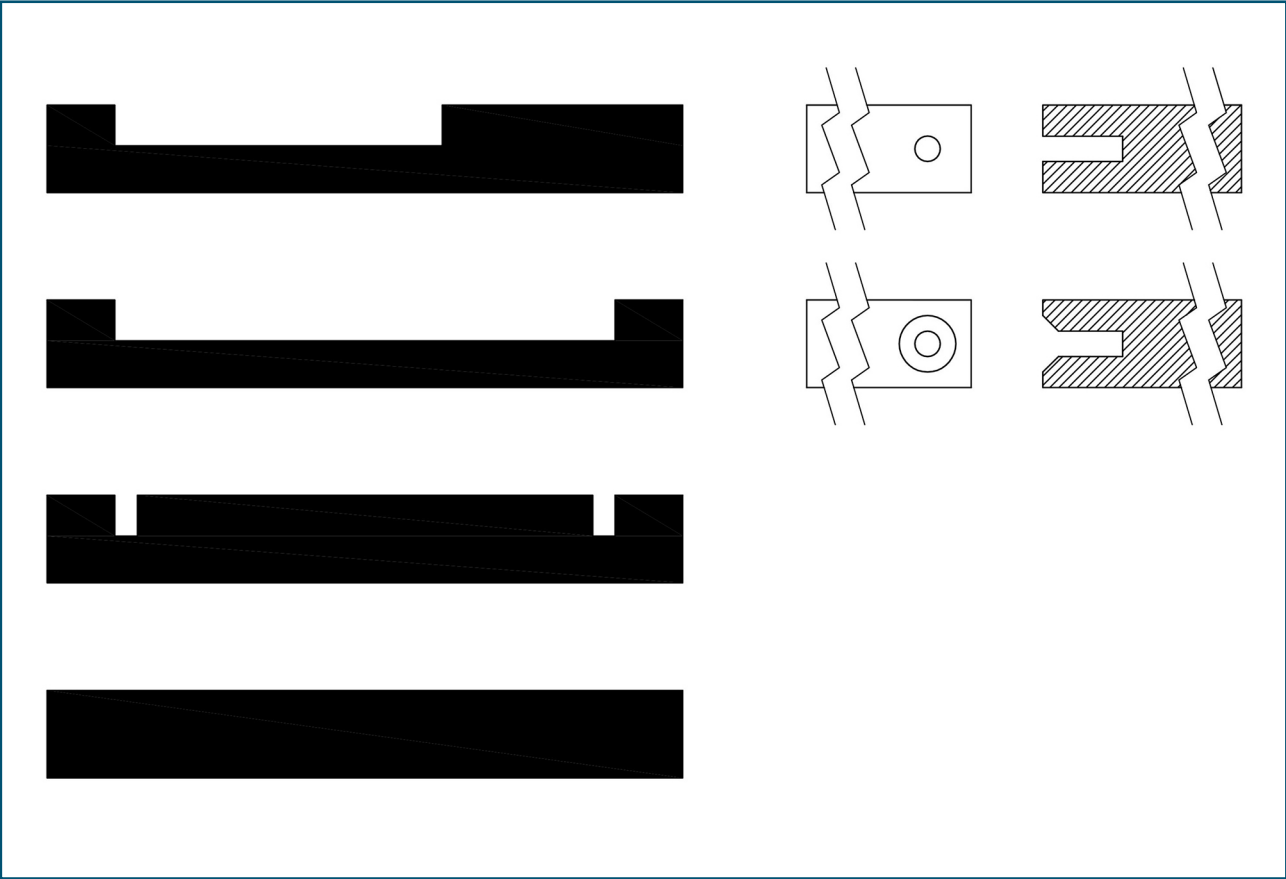

This industry requires high standard of air purification efficiency obtainable only with quality materials and manufactures, quality that SIFA offers in its products for OEM and OES solutions.

Medium density light, is a surrogate of wood used in the construction of air filter frames.

Through its internal design and engineering service, SIFA is skilled in producing more or less worked pieces, customized to ensure robust and effective filter construction.
