SIFA offers a wide range of articles dedicated to match the most demanding requirements in the indoor sector.

This industry requires high standard of air purification efficiency obtainable only with quality materials and manufactures, quality that SIFA offers in its products for OEM and OES solutions.

SIFA Technology's care towards the environment is expressed into constant investments in Research and Development.

The right recognition of the strong work done and of the ethic in which all the SIFA's staff believes in, is the recognition of a number of intellectual patents and quality certifications.

All products marked with the "ECO SIFA Technology" logo are focused on the interest of preserving environment and life; they have the peculiarity of being biodegradable, compostable and non-polluting.

Plastic V-Banks frames is available also in Ecofriendly version.

PLASTIC V-BANKS FRAMES

Filter frames for High Flow application.
HVAC and Turbo Gas.

Products range: 3 and 4 V frame kits for filter surfaces ranging from 6.5 sqm (70 sqft) up to 30 sqm (322 sqft). They are available for usage at 80 °C (176 ° F) temperature.

The following versions are available:

1) for Temperature peak value of 120 °C (248 °F);

2) Conductive Properties;

3) Flame retardant in compliance with the regulation class V0 and M0

Shapes:

- 3V, 292mm (11.5") Depth

- 4V, 292mm (11.5") or
420mm (16.5") Depth
Header 25mm

NEW

-4V, 292mm (11.5") or
420mm (16.5") Depth,
Header size 20mm (0,78" or
25/32")

Sizes:

-592mm * 592mm
(23.3" * 23.3")
-592mm * 490mm
(23.3" * 19.3")
-592mm * 292mm
(23.3" * 11.5")
